

The Cost of Unscheduled Aircraft Maintenance

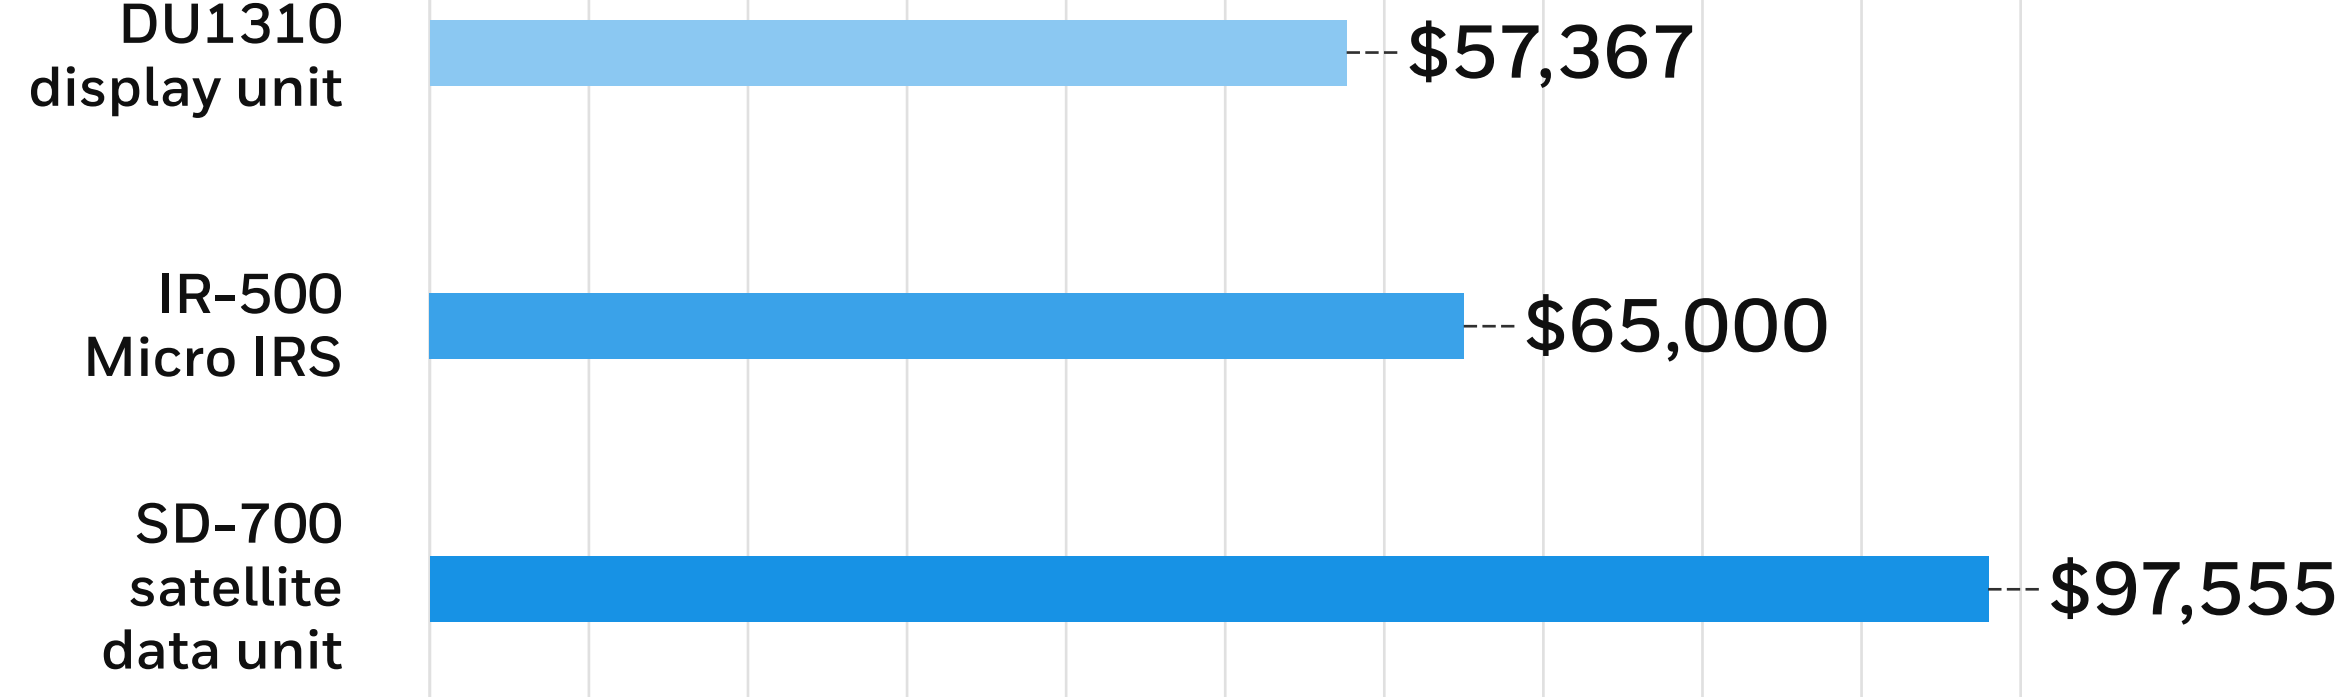

An aftermarket maintenance plan can have a huge impact on your maintenance budget. But what are the real benefits of a maintenance plan, and the costs of going without one?

LET'S TAKE A LOOK AT SOME UNEXPECTED MAINTENANCE COSTS

Pay-as-you-go maintenance can result in unmanageable costs and insufficient maintenance budgets, especially when multiple unexpected failures happen

Exchange costs for avionics components
(Gulfstream G550 aircraft)

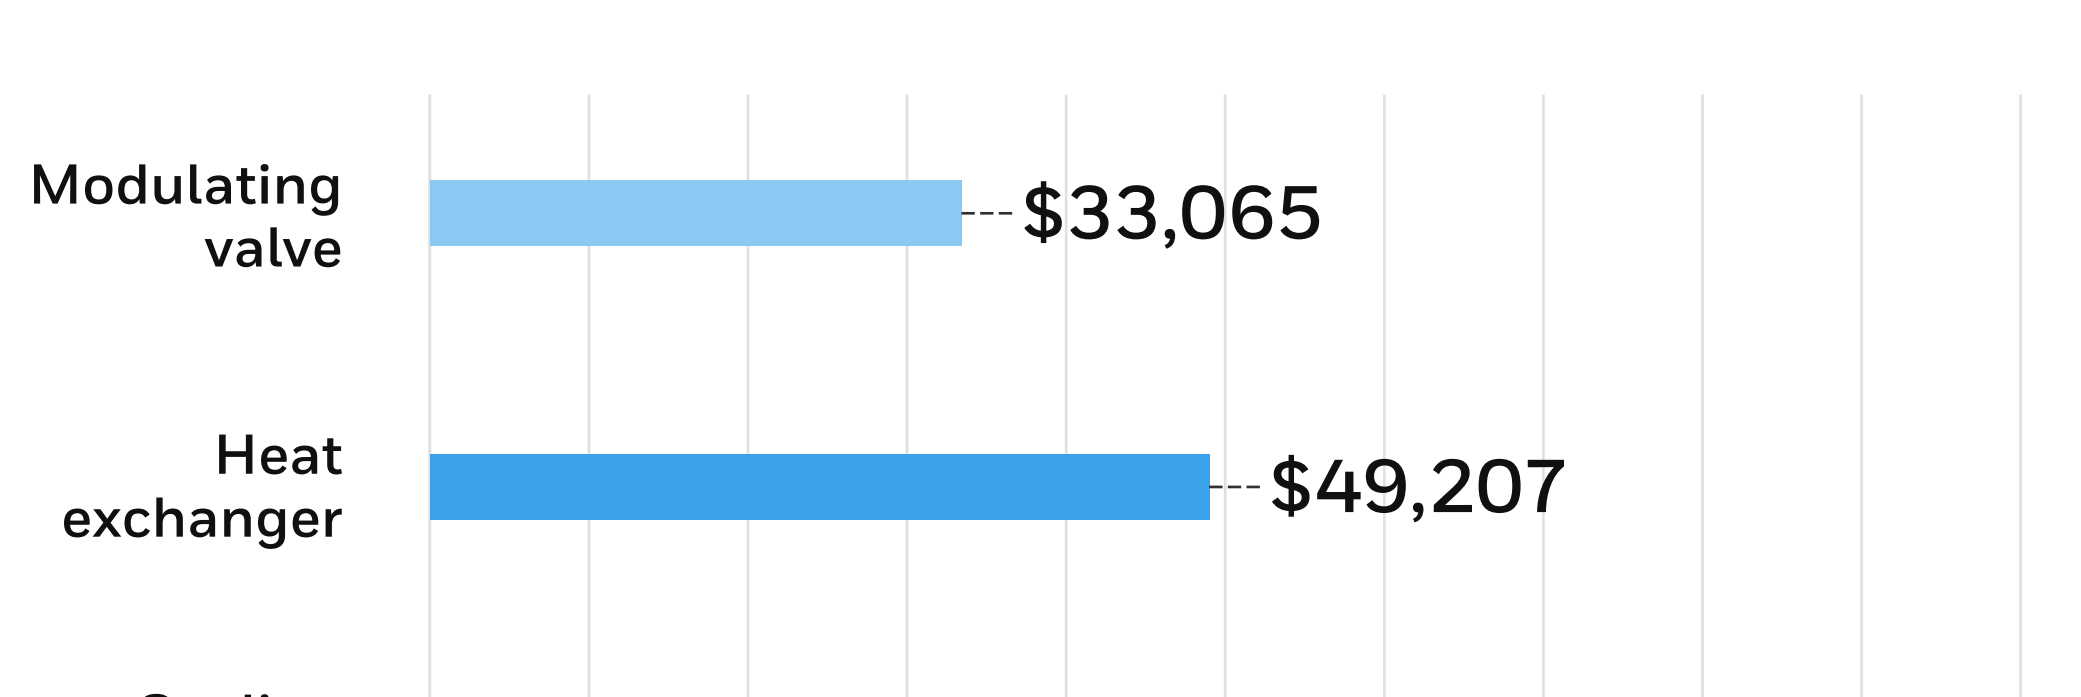

*Honeywell 2020 list price

Repairs may cost less than exchanges, but take more time

Exchange costs for mechanical components
(Bombardier CL601/604/605 aircraft)

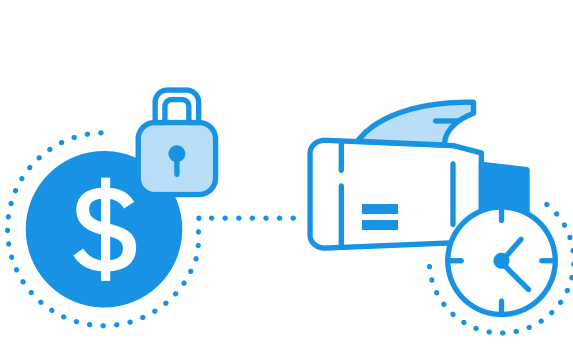

*Honeywell 2020 list price

Outright purchases may cost even more than exchanges

YOUR TOOL FOR AVOIDING UNSCHEDULED MAINTENANCE COSTS: HONEYWELL'S MAINTENANCE SERVICE PLAN (MSP)

MSP makes it easy and affordable to control the unexpected

Reduce maintenance costs with annual usage-based fee

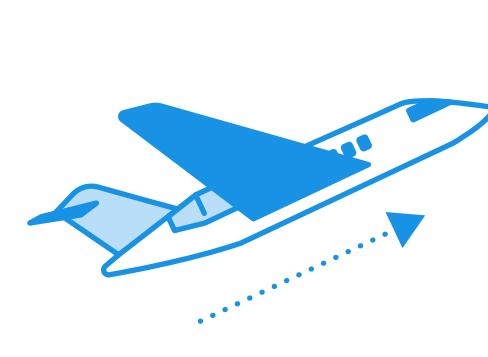

Fixed pricing is based on factors such as flying hours and engine use

Ensure accurate maintenance budgeting

Fixed pricing lets you plan ahead, avoiding devastating impacts to budget

Minimize downtime

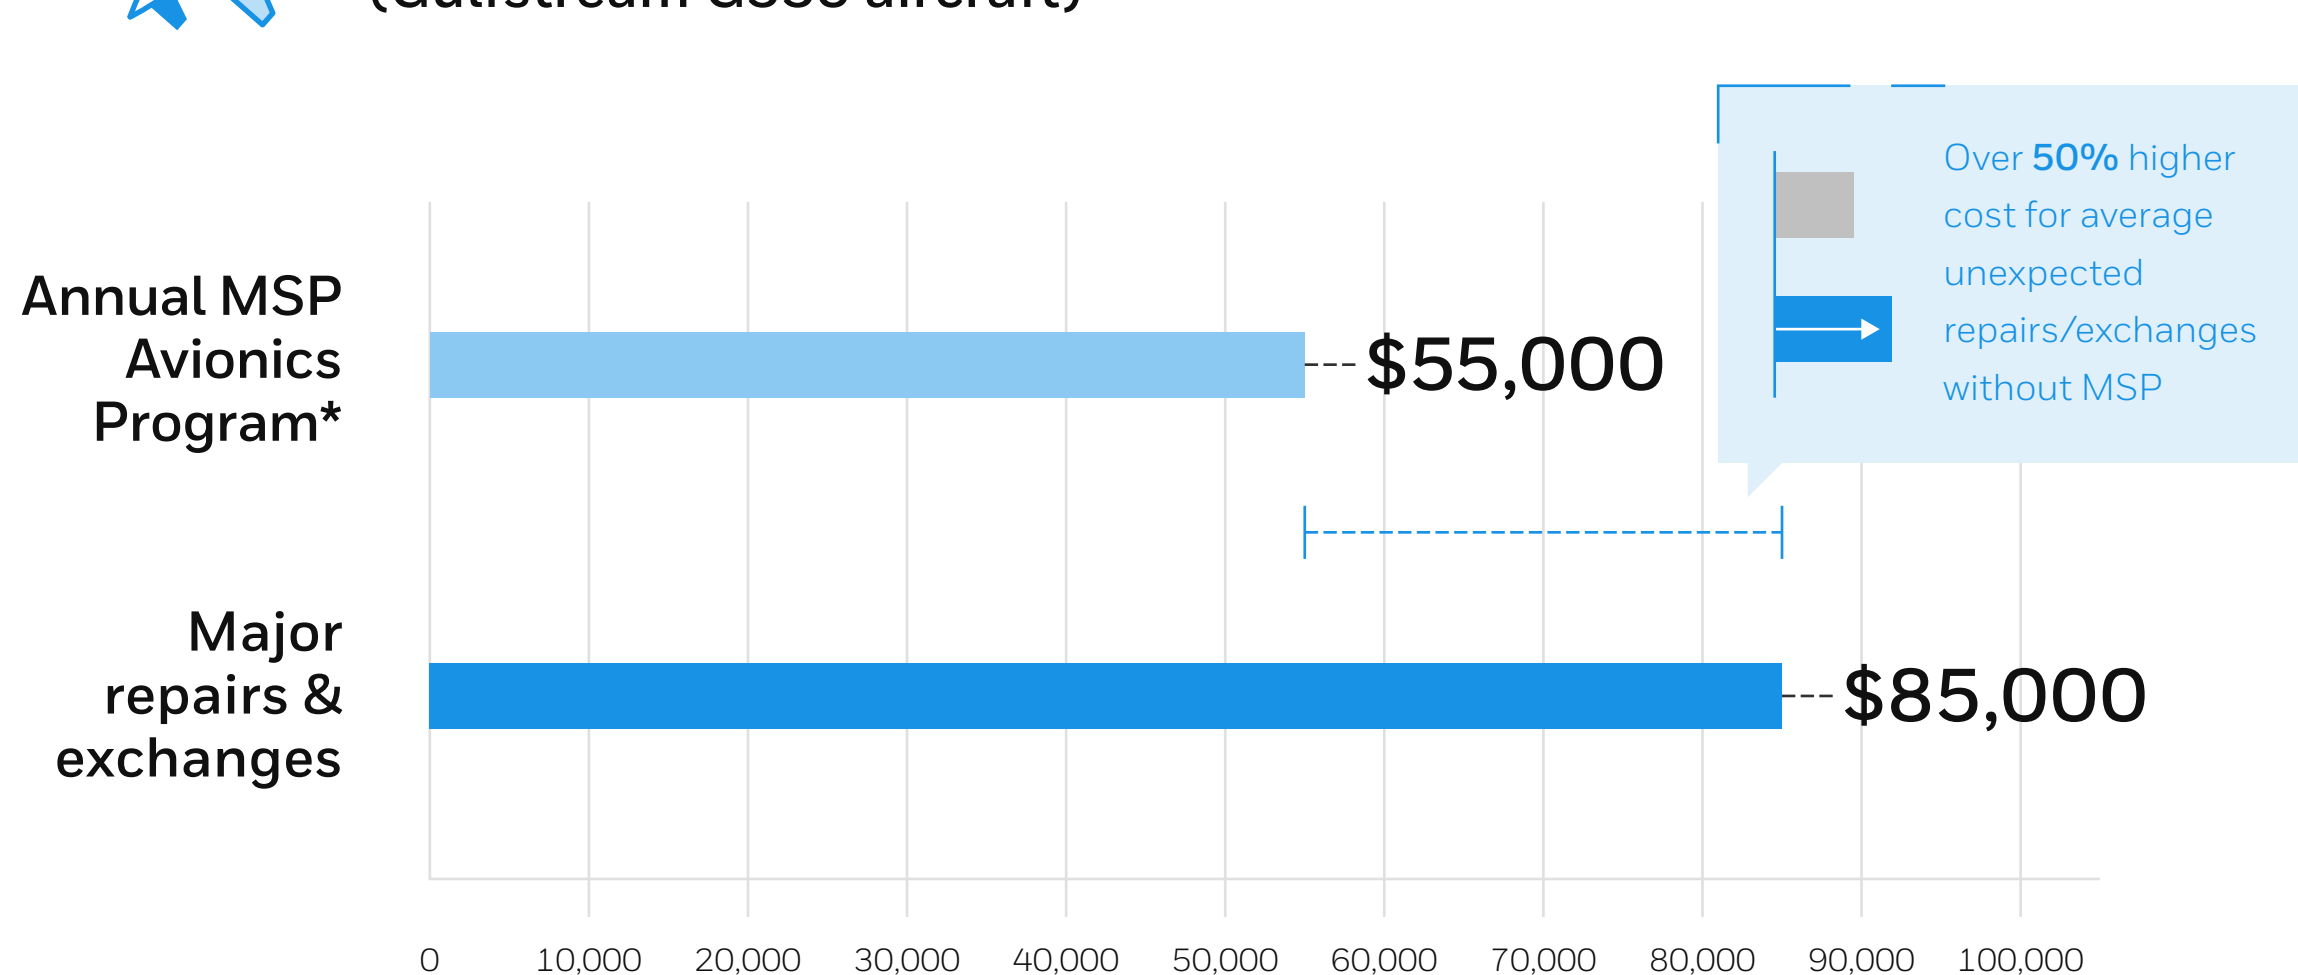

A streamlined repair process returns aircraft to the air faster

LET'S COMPARE UNEXPECTED MAINTENANCE COST AVERAGES AGAINST THE COST OF MSP

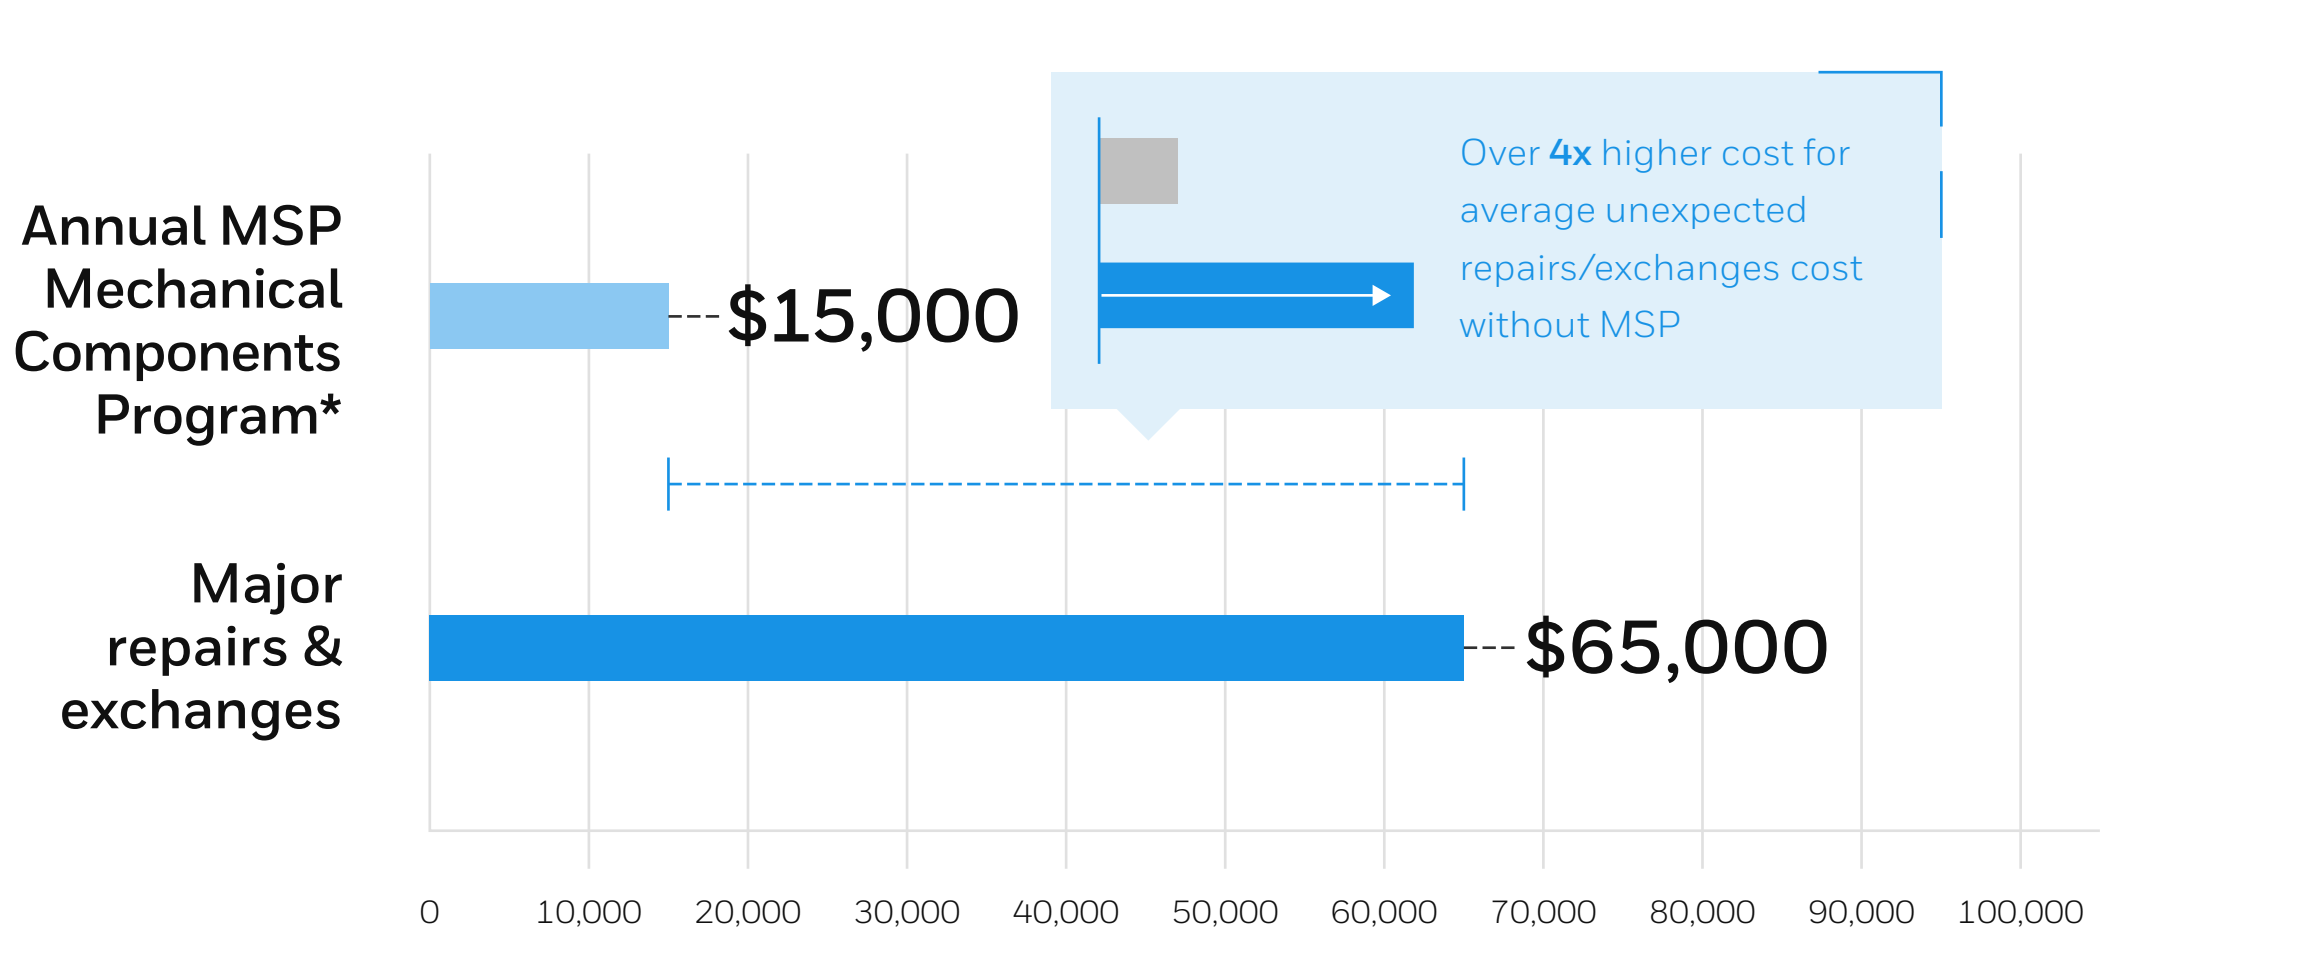

Average annual cost of avionics component repairs
(Gulfstream G550 aircraft)

*Exact cost varies on aircraft type and annual flight hours

Average annual cost of mechanical component repairs
(Bombardier CL601/604/605)

*Exact cost varies on aircraft type and annual flight hours

MSP AVIONICS SOLVES OBSOLESCENCE ISSUES

As technology continues to advance, product obsolescence is an ever-present concern for operators

Expensive upgrades

Lack of maintenance support

Honeywell offers a solution

You can choose to add MSP Avionics Extended Programs to your base coverage

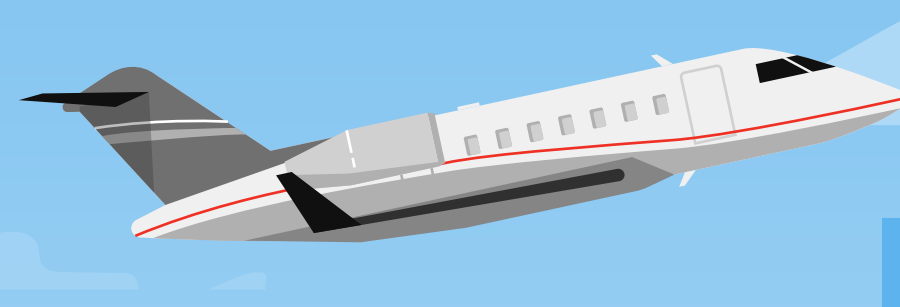

Affordable exchanges for obsolete parts

Coverage for multiple products

Honeywell understands the challenges of budgeting for unplanned maintenance and product obsolescence. To control budget and keep your aircraft in the air where they belong, it makes sense to say yes to a maintenance service plan.
